Peter Holt

Engineering Lead @ Admiral Money
Fareham, England, United Kingdom

Summary

I am the managing director of my company Debuggin Limited where
I am excited to provide product solutions to my clients, wether the
product is an internal or customer facing solution, I take pride in
making peoples lives easier with exciting new ways and applying
new technologies to see how it can help drive business and help
people!

To support this further I also am a senior developer at Admiral
Money, a finance provider where I enjoy working with a larger team
of absolutely amazing developers!
